

JOIN CTIC

connect. inform. champion.

For more than four decades, CTIC has been a driving force in advancing conservation agriculture. From our early projects promoting no-till practices to our current programs, which support farmers, conservationists, agribusiness professionals, academics, and policymakers in protecting soil health, water quality, and the environment.

We serve as a clearinghouse for conservation-related information. Our organization thrives in offering data on the adoption of conservation systems, practical insights for addressing real-world challenges, and an understanding of their broader impacts.

What sets CTIC apart is our ability to forge meaningful connections within the industry. We provide a bridge to valuable networks and relationships that can have a great impact on your organization's conservation efforts.

We invite you to become a member of CTIC. By joining us, you become a part of a community dedicated to driving change. As a member, you'll have access to resources, opportunities to collaborate, and the chance to make an impact on conservation agriculture.

CTIC stands out as the leading organization for those looking to explore, demonstrate, share, learn, and engage in discussions about conservation farming. Whether it's technology or technique, policy or hands-on implementation, data analysis or farm tours, CTIC is at the center of conservation agriculture. Join us today and be a part of the movement!

YOUR MEMBERSHIP IN CTIC SUPPORTS:

- Innovations in tracking the adoption of conservation on the ground...from farmer surveys to remote sensing.
- Demonstrations of conservation systems
- Education on everything from the latest insights to cutting-edge tools and models
- Training for farmers, CCAs and retail agronomists, conservation agency staff, federal staffers and more
- Ongoing dialogues with policymakers and agencies
- And much more!

ARKANSAS
Diversity in Conservation
PEOPLE • CROPS • TECHNOLOGY

ARKANSAS, HERE WE COME!

Last year you joined us in Frankenmuth, MI for the 16th Annual Conservation in Action Tour, join us in 2024 in Arkansas for the 17th annual tour!

Watch for more information as we share the who, what and how behind next year's tour! From the diverse people, crops and technology - you'll see what makes the state of Arkansas so great!

Keep an eye out for registration, sponsorship and agenda details!

- Illinois Corn Growers Association
- Lessiter Media Conservation Ag Division
- National Corn Growers Association
- The Nature Conservancy
- Precision Risk Management

BRONZE

- The Truax Company
- NC State University

FROM OUR MEMBERS:

- » "CTIC is a great place to exchange ideas and hear different perspectives. It truly is a melting pot. Oftentimes we get siloed or cubbyholes into our own way of thinking about issues, but a lot of the solutions are the same."

Mark White | Syngenta Crop Protection, LLC

- » "CTIC is the leading conservation organization in the U.S., supporting farmer adoption of conservation practices. The Mosaic Company is a proud, long time supporter of CTIC and we encourage other organizations to join CTIC to further advance innovation, technology, and system-level approaches to improve stewardship of agricultural lands in the U.S."

Adam Herges | The Mosaic Company
